

NATPE 2008

To: Producers of Quality Television Programming

Since its establishment in 1989, **The Television Syndication Company, Inc. (TVS)** has become a major force in the distribution of quality programming to television, inflight, video, DVD and educational outlets in the USA and in every other country of the world.

Although we have one of the most comprehensive catalogs in the industry, we are always interested in acquiring dynamic new titles for domestic and international outlets.

We have a few very simple basic requirements:

- ▶ We deal only in finished programming where the entire show, or pilot for a new series, is available for screening;
- ▶ We do not accept concepts, formats or trailers for proposed programming nor do we finance projects;
- ▶ And we strongly prefer new programming that has not been exposed in the marketplace.

Here at NATPE, and at all of the world's other major television markets, we meet with buyers from across the USA and around the world and recommend products from our current catalog. **We do not screen or discuss new products or accept DVDs and/or promotional material for new shows during the market.**

We do, however, encourage producers to send us screening material on DVD and promotional material for completed programming that they feel has the potential to be marketed to television, inflight, video/DVD and/or educational outlets here in the USA or in any other country of the world.

Send a DVD that you can spare (*we do not return screening materials*), **along with any additional promotional material or information to:**
